

PCBs in Caulk Project

Developing BMPs to Manage PCBs in Caulk during Building Demolition/Renovation in the San Francisco Bay Area Region

Announcing a Stakeholder Meeting

We encourage the participation of anyone interested in the development of best management practices (BMPs) to be used in the Bay Area and the implementation process for those BMPs. The project is designed to protect San Francisco Bay from PCBs released during demolition of some buildings, in partial fulfillment of municipal stormwater permit requirements.

Meeting date & time

Thursday, July 15, 1-4pm

Joseph P. Bort MetroCenter Auditorium, 101-8th Street, Oakland (Lake Merritt BART)

Who is affected

Construction/demolition managers, contractors, building industry associations

Air/water/waste regulators

Public health and safety officers

Environmental remediation specialists

Municipal permitting, community development, public works departments

RSVP to Athena Honore, ahonore@waterboards.ca.gov
