RE: Final 2022 San Francisco Estuary Blueprint

Update

At the March 16 Implementation Committee meeting, IC members approved the Final Draft 2022 Estuary Blueprint. Staff continued to work with a professional editor and graphic designer to address typographical errors, refine photo placement and formatting, and finalize the document for publication. Staff also finalized associated materials required by EPA as part of the approval process. In April, staff sent the approval packet containing the corrected draft and associated materials to the Executive Council and the U.S. EPA for review and signature.

Approval

The Final 2022 Estuary Blueprint is currently under review by EPA, but as of May 9, all Executive Council members have approved the Blueprint. With this exciting news, staff have undertaken a final review of the document for any remaining errors to prepare for publication and release. Additional supporting documents, including a table of all Blueprint partners with their corresponding tasks, have also been developed at the request of IC members. The Partner Table is attached and will also be accessible on the Blueprint website.

Release

In conjunction with the preparation of the final Estuary Blueprint, SFEP staff is developing a publicity plan and working with the San Francisco Estuary Institute to revise the online home of the Blueprint on SFEP's website. The revamped web section will be published in the summer alongside the limited release of a printed publication. Planning is currently underway for an in-person event, as pandemic circumstances allow, to celebrate completion of the update and kick off implementation.
