

# STATE OF THE SAN FRANCISCO ESTUARY CONFERENCE

SAN FRANCISCO ESTUARY PARTNERSHIP

The biennial State of the Estuary Conference (SOE), hosted by the San Francisco Estuary Partnership, showcases the latest information about the region's work to sustain and improve the Bay-Delta's ecological health. SOE2024 aims to bring together a multi-disciplinary audience of ~800 leaders for learning, networking, and collaboration to advance the health and resilience of the Estuary.

**You are invited to partner with us to help shape a dynamic, solutions-oriented event!**

By sponsoring the 2024 State of the Estuary Conference, your agency, organization, or company can demonstrate leadership and commitment to creating a resilient and thriving Bay-Delta in the face of climate change while engaging with hundreds of environmental and climate leaders.
